

Depreciation Membership Program

Depreciation Membership Program

What if your car was one of the thousands of vehicles totaled or stolen in the U.S. every year?

Would your insurance pay out enough for you to replace it with a similar vehicle to the one you originally purchased? Auto insurers will pay the depreciated value at the time of claim, NOT the original purchase price of the vehicle.

If the vehicle we are selling you now becomes a total loss during the next 4 years, we will give you a discount off a replacement vehicle from a participating dealership.

This discount will be an amount equal to the depreciation you have suffered or the maximum potential benefit shown to the right.

Covered Vehicle Purchase Price	Maximum Potential Benefit
\$0 - \$20,000	\$6,000
\$20,001 - \$32,000	\$8,000
\$32,001 - \$64,000	\$10,000
\$64,001 - \$100,000	\$15,000
\$100,001 - \$128,000	\$15,000

Your Vehicle is declared a total loss

What happens **without** DMP?

\$29,000
Purchase Price

\$8,000
Out of Pocket
\$21,000
Auto Insurance Pay-out
