PDR is an innovative process developed by automobile manufacturing production teams to remove small dings and dents from painted sheet metal surfaces without harming the vehicle's factory finish. Using specialized hand tools, most minor dents can be permanently removed leaving no evidence they ever existed.

PROGRAM HIGHLIGHTS

PAINTLESS DENT REPAIR (PDR)

Provides for the repair, or reimbursement of costs to repair, dents on all exterior painted sheet metal body panels of your vehicle through existing PDR techniques¹.

- Works to permanently remove minor dents without affecting the existing paint finish
- More convenient and less time consuming than traditional body shop repairs
- With terms up to 84 months, you can choose the plan that best suits your needs and budget

¹Services that require replacement of a body panel or sanding, bonding, or repainting are specifically excluded.

This is a general outline of coverage for marketing purposes only and does not constitute your contract. Actual terms and conditions may vary by state. See your contract for complete provisions, exclusions and limitations.
